PROFESSIONAL SUMMARY

Motivated and creative Information Technology graduate seeking an entry-level Web Designer position where I can apply my skills in Wix website development, Canva, visual graphics design, and basic web design. Eager to create user-friendly and visually appealing websites, develop my technical skills, and contribute positively to the organization.

EXPERIENCE

Data Entry

Trans-world international logistics corp. **May - August 2026**

On-the-Job Training

- Encoded and prepared daily summaries of motorcycles loaded for delivery to dealers in different cities.
- Organized and updated shipment data using Microsoft Excel.
- Assisted in preparing reports and documents related to motorcycle deliveries.
- Checked encoded information for accuracy and completeness.

PROJECTS

IoT-Enabled Smart Cane: A Voice-Guided Obstacle Detection Aid for the Visually Impaired **2025-2026**

- The purpose of this thesis is to develop an IoT-enabled smart cane that helps visually impaired massage therapists detect obstacles and navigate their surroundings more safely and independently. **2025-2026**
- Developed an IoT-enabled smart cane using an Arduino microcontroller, ultrasonic sensors, rechargeable battery, and obstacle detection algorithms. The system provides voice-guided feedback to detect obstacles and assist visually impaired massage therapists with safer and more independent mobility.

Web Design

- Designed and developed responsive websites using Wix, focusing on user-friendly layouts, visual design, content organization, and basic website customization.

SKILL

- Graphic Design, Cisco Networking Fundamentals, Wix Website Development, Basic Network Configuration & Troubleshooting.
- Problem-Solving, Teamwork & Collaboration, Adaptability, Willingness to Learn.Communication Skills.
